September 4, 1980

Mr Frank J Furlan, Acting Director  
Department of Public Works  
City of Waukegan  
196 North Utica Street  
Waukegan, Illinois 60085

Dear Mr Furlan

Your solid waste disposal facility located south of Yorkhouse Road and east of McAree Road in Waukegan, Illinois was inspected on August 7, 1980, by Jeff Stofferahn, Lisa Binder and Cathy Crego, representing this Agency

The inspection disclosed the following condition(s) which constitute violations of the Environmental Protection Act and Chapter 7 of the Illinois Pollution Control Board Solid Waste Rules and Regulations.

Leachate was observed to be flowing from the east and southwest borders of the site into the perimeter drainage ditches. You should take immediate action to correct this situation.

Randomly dumped refuse on the site still has not been removed. Adequate site restriction should be utilized to prevent future "fly-dumping".

We suggest that you correct the aforementioned violations. A reinspection will be made in the near future to determine your progress.

Sincerely,

Kenneth P. Bechely, Northern Region Manager  
Field Operations Section  
Division of Land/Noise Pollution Control
